PROFESSIONAL SUMMARY

Entry-level Cybersecurity Analyst with hands-on experience in SOC operations, SIEM monitoring, log analysis, and incident triage. Skilled in Splunk, Wazuh, Linux, Windows Event Logs, and basic threat detection techniques. Familiar with SOC workflows, MITRE ATT&CK framework, and security monitoring. Seeking an entry-level SOC Analyst or Cybersecurity Analyst role.

EDUCATION

Bachelor of Technology – Computer Science and Engineering **2020–2024**

Manakula Vinayagar Institute of Technology

HSC **2019–2020**

A.R.L.M Matriculation Higher Secondary School

PROJECTS

SOC Analyst Home Lab – SIEM Monitoring and Threat Detection

- Built a SOC home lab using a SIEM (Wazuh and Splunk) to monitor Windows and Linux endpoints for security events.
- Configured log forwarding, alert rules, and dashboards to identify suspicious activity such as brute-force attempts, privilege escalation, and malware indicators.
- Performed incident triage by analyzing system logs, correlating alerts, and documenting findings using SOC-style reporting methods.

Crime Analysis and Forecasting System – Machine Learning

- Developed a machine learning model to analyze crime data and predict high-risk hotspots.
- Assisted law enforcement in optimizing resource allocation and improving situational awareness.
- Published research findings in the *African Journal of Biological Sciences*.
